

Forest Town Primary School

On-line Safety Policy

March 2024

Date approved by Interim Executive Board: 18 March 2024

Signed by: 

Name: Liz Kitts

Position: Chair, Interim Executive Board

Aim

This online safety policy outlines the commitment of Forest Town Primary School to safeguard members of our school community online in accordance with statutory guidance and best practice.

This Online Safety Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Forest Town Primary School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

We aim to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

Legislation and Guidance

This policy is based on the Department for Education's (DfE) statutory safeguarding guidance, Keeping Children Safe in Education, and its advice for schools on:

- Teaching online safety in schools
- Preventing and tackling bullying and cyber-bullying: advice for headteachers and school staff
- Searching, screening and confiscation

It also refers to the DfE's guidance on protecting children from radicalisation.

It reflects existing legislation, including but not limited to the Education Act 1996 (as amended), the Education and Inspections Act 2006 and the Equality Act 2010. In addition, it reflects the Education Act 2011, which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

Roles and Responsibilities

The Governing Body

The governing board has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The governing board will co-ordinate regular meetings with appropriate staff to discuss online safety, and monitor online safety logs as provided by the Senior Designated Safeguarding Lead (SDSL).

All governors will:

- Ensure that they have read and understand this policy
- Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet
- Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with SEND because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

The Headteacher

The headteacher is responsible for ensuring that staff understand this policy, and that it is being implemented consistently throughout the school.

Senior Designated Safeguarding Lead and Deputy Designated Safeguarding Lead

Details of the school's Senior Designated Safeguarding Lead (DSL), and deputy/deputies, are set out in our child protection and safeguarding policy as well as relevant job descriptions.

All DSLs take a lead responsibility for online safety in school, in particular:

- Supporting the headteacher in ensuring that staff understand this policy and that it is being implemented consistently throughout the school
 - Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents
 - Managing all online safety issues and incidents in line with the school child protection policy
 - Ensuring that any online safety incidents are logged, in accordance with our child protection Policy, and dealt with appropriately
 - Ensuring that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school anti-bullying policy
 - Updating and delivering staff training on online safety
 - Liaising with other agencies and/or external services if necessary
 - Providing regular reports on online safety in school to the headteacher and/or governing board
- This list is not intended to be exhaustive.

The IT Lead Technician

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems, which are reviewed and updated on a regular basis to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material
 - Ensuring that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly
 - Conducting a full security check and monitoring the school's ICT systems on a regular basis
 - Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files
 - Ensuring that any online safety incidents are logged, in accordance with the child protection policy
- This list is not intended to be exhaustive.

All staff and volunteers

School staff are responsible for ensuring that:

- They have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices
- They understand that online safety is a core part of safeguarding
- They have read, understood, and signed the staff acceptable use agreement (AUA)
- They immediately report any suspected misuse or problem for investigation/action, in line with the school safeguarding procedures
- All digital communications with learners and parents/carers are on a professional level and only carried out using official school systems
- Online safety issues are embedded in all aspects of the curriculum and other activities
- Ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- They supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices
- In lessons where internet use is pre-planned learners are guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- Where lessons take place using live-streaming or video-conferencing, there is regard to national safeguarding guidance and local safeguarding policies (n.b. the guidance contained in the SWGfL Safe Remote Learning Resource)
- There is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc
- They model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.

Parents/Carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- Publishing the school Online Safety Policy on the school website
- Providing them with a copy of the learners' acceptable use agreement (the school will need to decide if they wish parents/carers to acknowledge these by signature)
- Publish information about appropriate use of social media relating to posts concerning the school.
- Seeking their permissions concerning digital images, cloud services etc (see parent/carer AUA in the appendix)
- Parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.
- Parents and carers will be encouraged to support the school in:
- Reinforcing the online safety messages provided to learners in school.
- The safe and responsible use of their children's personal devices in the school (where this is allowed)

- If parents have any queries or concerns in relation to online safety, these should be raised in the first instance with a DSL.

Visitors and Members of the Community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use.

Education – Students/Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating *students/pupils* to take a responsible approach. The education of *students/pupils* in online safety/digital literacy is therefore an essential part of the school's/academy's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum should be provided as part of Computing/PHSE/other lessons and should be regularly revisited
- Key online safety messages should be reinforced as part of a planned programme of assemblies and PSHE/Computing activities
- Students should be taught in all lessons to be critically aware of the materials/content they access on-line and be guided to validate the accuracy of information.
- Students should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Students should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.
- Students should be helped to understand the need for the student acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies, the internet and mobile devices
- In lessons where internet use is pre-planned, it is best practice that students should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where students are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.

Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, ebulletins and staff meetings). By way of this training, all staff will be made aware that:

- Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- Children can abuse their peers online through:
 - Abusive, harassing, and misogynistic messages
 - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
 - Sharing of abusive images and pornography, to those who don't want to receive such content
- Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element Training will also help staff:
- Develop better awareness to assist in spotting the signs and symptoms of online abuse
- Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The SDSL and deputies will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training. Volunteers will receive appropriate training and updates, if applicable.

Cyber-bullying

Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of one person or group by another person or group, where the relationship involves an imbalance of power. (See also the school behaviour policy.)

Preventing and Addressing Cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and are encouraged to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Teachers will discuss cyber-bullying with their classes, and the issue will be addressed in assemblies.

Teachers are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will consider whether the incident should be reported to the police if it involves illegal material, and will work with external services if it is deemed necessary to do so.

Filtering

The school manages access to content across its systems for all users and on all devices using the school's internet provision. The filtering provided meets the standards defined in the DfE Filtering standards for schools and colleges and the guidance provided in the UK Safer Internet Centre Appropriate filtering.

- Illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- There are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective
- There is a clear process in place to deal with, and log, requests/approvals for filtering changes (see Appendix for more details).
- Filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.
- Access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.

Monitoring

The school has monitoring systems in place to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that the network (and devices) are monitored.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.

How the School Will Respond to Issues of Misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in the behaviour policy. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff disciplinary procedures. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents which involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

Mobile Phones

Pupils in Y5 and 6 may bring mobile devices into school but do so at their own risk. These are placed into the class tray and stored in the school office during the day. Pupils are not permitted, at any point, to use them during the school day and all phones are turned off until the children leave the school premises.

Any breach of the Acceptable Use Agreement by a pupil may trigger disciplinary action in line with the school Behaviour Policy, which may result in the confiscation of their device.

Staff Using Work Devices Outside School

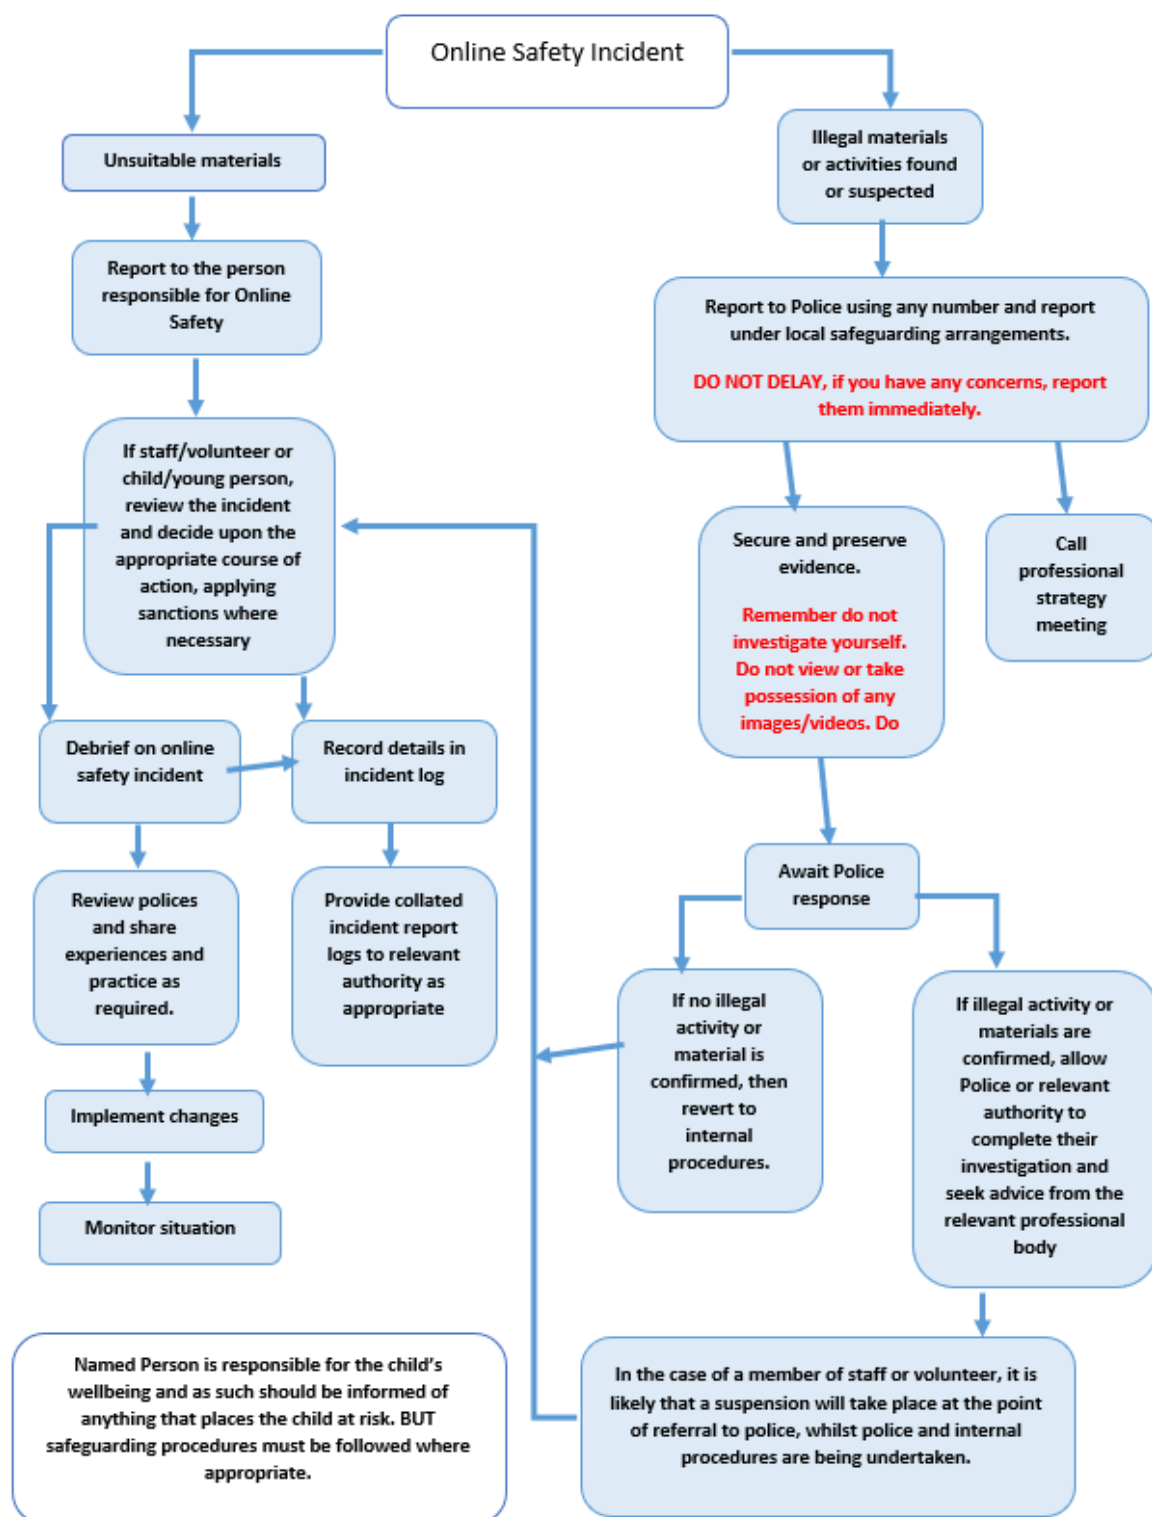

Staff members using a work device outside school must not use the device in any way which would violate the school's terms of acceptable use. Staff must ensure that their work device is secure and password-protected, and that they do not share their password with others.

They must take all reasonable steps to ensure the security of their work device when using it outside school. Any USB devices containing data relating to the school must be encrypted.

If staff have any concerns over the security of their device, they must seek advice from the Computing Support.

Data Protection

Data will be processed to be in line with the requirements and protections set out in the UK General Data Protection Regulation.

Staff and Volunteer Acceptable Use Policy Agreement

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within school and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for *students/pupils* learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that pupils receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, etc.) out of school, and to the transfer of personal data (digital or paper based) out of school.
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will be professional in my communications and actions when using school systems.
- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.

- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permissions in place and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website/Dojo/Twitter) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies.
- I will only communicate with pupils and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices in school, I will follow the rules set out in school agreements, in the same way as if I was using school equipment. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programs)
- I will ensure that I save all documents to the school server/cloud and not to the hard drive of my laptop.
- I will ensure that my data is regularly backed-up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist or extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school practice.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in School policies. Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that data protection policy requires that any staff or pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use policy applies not only to my work and use of school digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action and referral to the Police if necessary.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Staff/Volunteer Name:

Signed:

Date:

A copy of this Agreement should be signed and returned to school within 10 days of receipt.

Employee Equipment Agreement

To be signed by all staff in possession of school IT equipment (laptop, ipad)

Description of Equipment or Property issued to staff:

.....

.....

The employer and employee agree that the equipment indicated above is company-owned and the employee shall use it only for work-related purposes. The employee is responsible for the care and maintenance of the equipment. In case that the equipment is, in any case, damaged, lost, stolen while outside the workplace, the employee shall be responsible for the costs and expenses for equipment's replacement. In case the equipment gets broken due to wear and tear, the employee shall report it to the School Business Manager as soon as possible.

After the expiration and termination of the Employee Agreement between parties, the employee shall return the equipment to the employer.

By signing this Agreement, the parties acknowledge that the employee has received the office equipment described above in working order and confirms to the terms and conditions for the use of the equipment.
